

Useful trailer information

When it matters.

Introducing the **SMART Trailer Package**

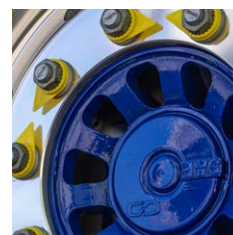

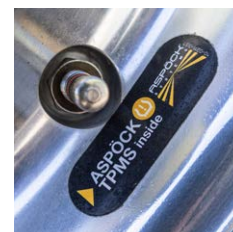

The SMART Trailer Package brings together a range of integrated technologies designed to give operators greater visibility of trailer performance, payload and maintenance.

From onboard weighing and axle load monitoring through to tyre pressure monitoring and automated trailer functions, the package helps operators stay informed while reducing unnecessary downtime.

Integrated technology from trusted suppliers

SMART combines technology from trusted commercial vehicle suppliers, bringing together proven systems into a single integrated trailer package.

Featuring products from Weightlifter, Haldex, Axcend, Aspöck and VPG, the package is designed to provide operators with greater visibility of trailer performance and operation.

What's included in the ***SMART Trailer package?***

INTEGRATED TRAILER SYSTEMS

Live trailer information designed to provide greater visibility during operation.

- ✓ GPS trailer location in real-time
- ✓ Axle load monitoring
- ✓ Wireless connectivity

MAINTENANCE VISIBILITY

Technology designed to help fleet managers identify potential issues earlier.

- ✓ Electronic Brake Performance Monitoring System (EBPMS)
- ✓ Tyre Pressure Monitoring System (TPMS)
- ✓ Maintenance Alerts

AUTOMATED TRAILER FUNCTIONS

Features which simplify day-to-day operation and ease of use for drivers.

- ✓ Auto-opening rear door
- ✓ Remote sheet operation
- ✓ Brake performance monitoring

BUILT IN SAFETY FEATURES

Designed to reduce time spent outside the cab while supporting safer trailer operation.

- ✓ Body Inclinometer
- ✓ Reverse camera
- ✓ Auto-opening rear door
- ✓ Axle load monitoring

Your trailer just got smarter.
